List of Tables

1 Introduction

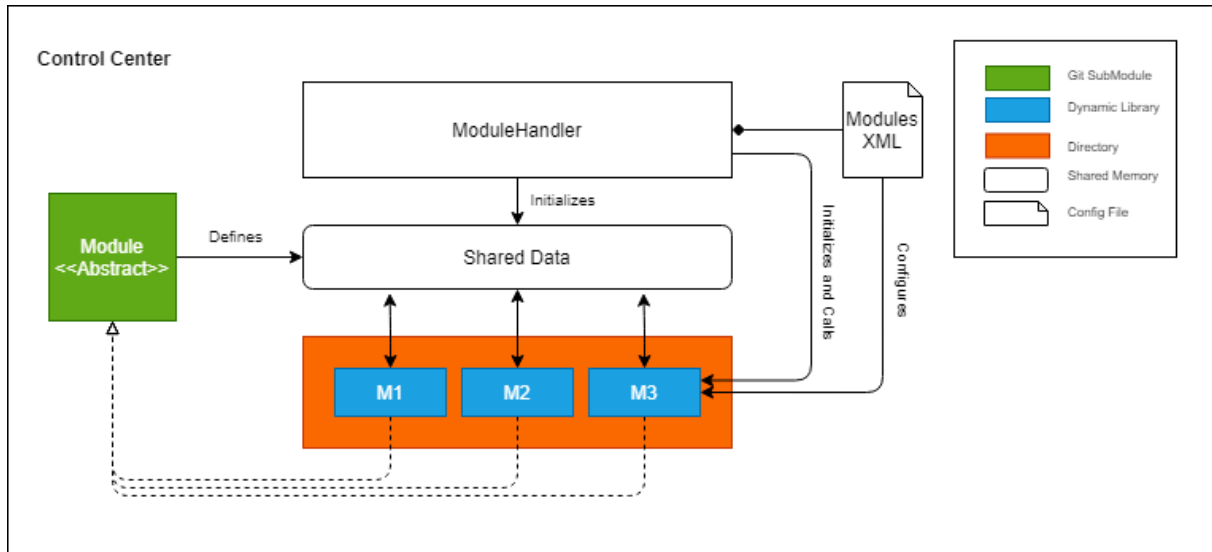

Figure 1: Overview

2 User Manual

2.1 Getting Started

2.1.1 Installing Dependencies

2.1.2 Building the Control Center

2.2 Available Modules

2.2.1 Controller

2.2.2 ZMQ Pipeline

2.2.3 Video Pipeline

2.2.4 Object Detector

2.2.5 Python Bridge

2.3 External Python Modules

2.3.1 Gesture Control

2.3.2 Voice Control

2.4 Configuring and Running the Control Center

3 Architecture

3.1 Module Handler

3.2 Module Configuration

3.3 Module Interface

3.3.1 Initialization

3.3.2 Cycle Processing

3.3.3 Deinitialization

4 Developing Modules

4.1 Module Template Generator

4.2 Module Version Control
